PROJECT # 27-P010

PROJECT NAME: Advanced Machining

Business/Organization: Advanced Machining

County: Brant

Priority Categories Addressed: Manufacturing

Loan Amount: \$250,000

Board-Approval Date: March 21, 2011

Project Summary: Advanced Machining is a metal fabrication shop. An existing employee has purchased the business from the existing owners and will bring new business and increased efficiency to the plant.

Regional Economic Impacts & Benefits: Increased employment from 6 employees to 8 employees, therefore sustaining 6 manufacturing jobs and adding 2 new jobs.

Market Impact Assessment: This project was supported by the Steering Committee and will increase manufacturing jobs within the Sand Plains region.
